PROFESSIONAL SUMMARY

Full Stack Developer skilled in **React.js, Node.js, Express.js, Flask**, and **MySQL/PostgreSQL**, with hands-on experience shipping end-to-end web applications. Delivered RESTful APIs, automated data ingestion workflows, and KPI dashboards that reduced manual effort by **~40%**. Combines full-stack development with data engineering and web content management to enable data-driven product decisions at scale.

TECHNICAL SKILLS

Core Stack: React.js, Node.js, Express.js, Next.js, Flask (Python), JavaScript (ES6+), TypeScript, HTML5, CSS3
APIs & Architecture: RESTful API Design, MVC Pattern, JWT Authentication, Role-Based Access Control (RBAC)
Databases: MySQL, Supabase (PostgreSQL), ChromaDB, Data Modeling, Query Optimization
Languages: JavaScript, TypeScript, Python, SQL
Tools: Git, GitHub, Postman, npm, Turborepo, Process Automation
Supporting: Pandas, NumPy, Matplotlib, Power BI, Tableau, MS Excel (Power Query, Pivot Tables)
Concepts: ETL Pipelines, Vector Indexing, LlamaIndex, RAG, Responsive Design, ARIMA Forecasting
AI Tools: Claude Code (CLI), Antigravity, Prompt Engineering, LLM-assisted Development, RAG Systems

WORK EXPERIENCE

Software Trainee Intern – Full Stack Developer Jan 2026 – Jun 2026
Dystinction Technology Pvt. Ltd. (OkQuoted) Chandigarh, India

- Engineered **5+ production modules** including RFQ & Negotiation workflows, Buyer/Vendor dashboards with role-based KPI tracking, Web CMS with content authoring and **3-layer RBAC** for non-technical users, and Vendor KYC system with document upload & tax compliance using **Next.js, React, TypeScript, Supabase (PostgreSQL), and REST APIs**.
- Implemented **JWT authentication and Row-Level Security (RLS)** for role-based data access; contributed to **Turborepo monorepo** architecture (Next.js + React Native/Expo); resolved hydration errors and session race conditions, improving app stability.

Full Stack & Data Engineering Intern Jun 2025 – Jul 2025
Design Innovation Centre (DIC), Panjab University Chandigarh, India

- Developed Python (Flask) REST APIs integrated with React dashboards; improved internal data reporting efficiency by **~35%** across 3 engineering teams, cutting weekly reporting time from ~5 hours to ~3 hours.
- Built automated data ingestion and validation pipelines with vector indexing, reducing manual preprocessing effort by **~40%**; designed real-time KPI dashboards tracking **10+ business metrics**.

PROJECTS

Salary Management System | *React.js, Node.js, Express.js, MySQL* | [GitHub](#)

- Built an end-to-end payroll application with **automated salary computation**, secure **JWT-based authentication**, **role-based access control (RBAC)**, **employee management**, and **data validation**, leveraging **React.js, Node.js, Express.js**, and **MySQL**.

RAG Chatbot for Panjab University | *Python, Flask, LlamaIndex, ChromaDB* | [GitHub](#)

- Developed full-stack **Retrieval-Augmented Generation (RAG) chatbot** with automated data pipeline for vector indexing via ChromaDB; reduced query resolution time by **~60%**, maintained **~95% data consistency**, and built accuracy monitoring dashboard.

Business & Financial Data Analysis (S&P 500) | *Python, Pandas, Flask, Power BI* | [GitHub](#)

- Automated data pipeline processing **500+ stock records**; built Power BI dashboards for sector and volatility analysis; implemented ARIMA forecasting achieving **~80% directional accuracy**, validated via A/B testing.

EDUCATION

B.E in Computer Science and Engineering 2022 – 2026
UIET, Panjab University, Chandigarh

LEADERSHIP & EXTRACURRICULAR

Society of Automotive Engineers | *Media Lead*

- Led **12-member** content team; introduced workflow automation tools that improved task turnaround speed and reporting efficiency across team operations.

Annual College Fest – Goonj | *Social Media Head*

- Executed analytics-driven social media campaigns achieving **30% increase** in online visibility – the highest social reach recorded across 3 consecutive years.
